Joke

In this book you will find

11

CHARLIE THE KITTEN (*Created by Patchwork Moose - Kate E. Hancock*) Charlie loves napping in the sunshine, ear scratching and bowls of fresh milk. You can usually find him curled up on a cushion, apart from Fridays, when he's out disco dancing.

DORIS THE DOLPHIN (*Created by Christel Krakkert*) Doris is a very clever dolphin who loves to help others. She likes long swims through the ocean and nosing about in old shipwrecks.

17

WILL THE TROPICAL BIRD (*Created by Los sospechosos - Julieta Azarcoya Alemán*) Will is the youngest member of his family and the only one born in blue. He's a great flier, even with his eyes closed. So far he's never crashed into obstacles. He's quite confident.

20

23

EMILY THE ELEPHANT (*Created by Pepika - Sanda J. Dobrosavljev*) Emily likes to think she's an adult but when nobody watches she still likes to blow bubbles with her trunk, like the little ones do. Her innocence will steal your heart.

27

JACQUES THE PIGEON (*Created by Irene Strange*) Jacques lives in the heart of Paris. He often struts along the boulevards in his cozy beret, nibbling crumbs from freshly baked baguettes and croissants.

BASIC STITCHES

If this is your first time making amigurumi you might find it useful to have a tutorial at hand. With the stitches explained in the next pages you can make all of the amigurumi in this book. I suggest you practice the basic stitches before you start making one of the designs. This will help you to read the patterns and abbreviations more comfortably without having to browse back to these pages.

CHAIN (*abbreviation: ch*)

This stitch is the basis for many crochet patterns. If you're working in rows, your first row will be a series of chain stitches. Use the hook to draw the yarn through the loop (1) and pull the loop until tight (2). Wrap the yarn over the hook from back to front. Pull the hook, carrying the yarn, through the loop already on your hook (3). You have now completed one chain stitch. Repeat these steps as indicated in the pattern to create a foundation chain (4).

SINGLE CROCHET (*abbreviation: sc*)

Single crochet is the stitch that will be most frequently used in this book. Insert the hook into the next chain stitch (1) and wrap the yarn over the hook. Pull the yarn through the stitch (2). You will see that there are now two loops on the hook. Wrap the yarn over the hook again and draw it through both loops at once (3). You have now completed one single crochet (4). Insert the hook into the next chain stitch to continue the row (5).

SLIP STITCH (*abbreviation: slst*)

A slip stitch is used to move across one or more stitches at once or to finish a piece. Insert your hook into the next stitch (1). Wrap the yarn over the hook and draw through both loops at once (2).

Chain

Single crochet

Slip stitch

Double crochet

Half double crochet

Triple or treble crochet

DOUBLE CROCHET (abbreviation: dc)

Bring your yarn over the hook from back to front before placing the hook in the stitch. Now insert your hook in the fourth chain - without counting the loop on the hook (1). Wrap the yarn over the hook and draw the yarn through the chain stitch. You now have three loops on the hook (2). Wrap the yarn over the hook again and pull it through the first two loops on the hook (3). You now have 2 loops on the hook. Wrap the yarn over the hook one last time and draw it through both loops on the hook (4). You have now completed one double crochet. To continue bring your yarn over the hook and insert it in the next chain stitch (5).

HALF DOUBLE CROCHET (abbreviation: hdc)

Bring your yarn over the hook from back to front before placing the hook in the stitch. Now insert your hook in the third chain - without counting the loop on the hook (1). Wrap the yarn over the hook and draw the yarn through the chain stitch. You now have three loops on the hook (2). Wrap the yarn over the hook again and pull it through all three loops on the hook (3). You have completed your first half double crochet. To continue bring your yarn over the hook and insert it in the next chain stitch (4).

TRIPLE OR TREBLE CROCHET (abbreviation: tr)

Bring your yarn over the hook twice before you insert it in the fifth chain from the hook (1). Wrap the yarn over the hook and draw the yarn through the chain stitch (2). Wrap the yarn over the hook again and pull it through the first two loops on the hook (3). Repeat this last step twice (4 & 5). You have now completed one *triple crochet*. To start the second row, you turn the work. You will need to bring the yarn up to the correct height to work the first stitch. To raise the yarn, make four chain stitches. Start the next triple crochet in the second stitch. Yarn over twice and be sure to insert your hook under both loops of this stitch.

6 BASIC STITCHES

INCREASE (abbreviation: inc)

To increase you make two single crochet stitches in the next stitch.

INVISIBLE DECREASE (abbreviation: dec)

The standard method of decreasing can leave a small bump or gap. The invisible decrease is an alternative method of decreasing which will make your decrease stitch look much like the other stitches in the row, resulting in a smoother and more even crochet fabric. Insert the hook in the front loop of your first stitch. Now immediately insert your hook in the front loop of the second stitch (1). You now have three loops on your hook. Wrap the yarn over the hook and draw it through the first two loops on your hook (2). Wrap the yarn over again and draw it through the two loops remaining on your hook (4). You have now completed one invisible decrease.

FRONT LOOPS ONLY (abbreviation: FLO)

AND BACK LOOPS ONLY (abbreviation: BLO)

When making a crochet stitch, you end up with two loops at the top of the stitch, a front loop towards you (1) and a back loop (2). When asked to crochet FLO or BLO you make the same stitch but leave one loop untouched.

BOBBLE STITCH

The bobble stitch creates a soft dimensional bobble in your crochetwork. Think of it as a cluster of dc stitches worked in the same stitch. Bring your yarn over the hook from back to front before placing the hook in the stitch (1). Wrap the yarn over the hook and draw the yarn through the stitch. You now have three loops on the hook. Wrap the yarn over the hook again and pull it through the first two loops on the hook. One half-closed double crochet is complete, and 2 loops remain on the hook (2). In the same stitch, repeat the preceding steps twice. You should have 4 loops on your hook. Wrap the yarn over your hook and draw the yarn through all 4 loops on the hook (3). One 3-dc-bobble-stitch is complete. Create a bobble stitch with as many dc stitches as indicated in the pattern.

Magic ring

MAGIC RING

A magic ring is the ideal way to start crocheting in the round. You start by crocheting over an adjustable loop and finally pull the loop tight when you have finished the required number of stitches. The advantage of this method is that there's no hole left in the middle of your starting round.

Start with the yarn crossed to form a circle (1). Draw up a loop with your hook but don't pull it tight (2). Hold the circle with your index finger and thumb, and wrap the working yarn over your middle finger (3). Make one chain stitch by wrapping the yarn over the hook and pulling it through the loop on your hook (4). Now insert your hook into the loop and underneath the tail. Wrap the yarn over the hook and draw up a loop (6). Wrap the yarn over the hook again and draw it through both loops on your hook (7). You have now completed your first single crochet (8). Continue to crochet until you have the required number of stitches as mentioned in the pattern.

Now grab the yarn tail and pull to draw the centre of the ring tightly closed (9).

You can now begin your second round by crocheting into the first stitch of the first round. You can use a stitch marker to remember where you started.

If you do not prefer this technique, you can start each piece using the following technique: ch 2, x sc into the second chain from the hook - where x is the number of sc stitches you would make in your magic ring.

FRENCH KNOT

The French knot is a sewing stitch. Insert a threaded embroidery needle from the back to the front through the stitch where you want the knot to show. Keep the tip of the needle flat against your crochetwork and wrap the yarn around your needle twice. Carefully pull the needle through these loops so that you end up with a double knot. Insert the needle in the crochet stitch next to the knot (not in the same stitch, as this will make the knot disappear) and fasten at the back.

INVISIBLE COLOR CHANGE

When you want to switch from one color to the next, you work to within two stitches before a color change. Make the next stitch as usual, but don't pull the final loop through (1). Instead, wrap the new color of yarn around your hook and pull it through the remaining loops (2). To make a neat color change, you can make the first stitch in the new color a slip stitch instead of a single crochet. Don't pull the slip stitch too tight or it will be difficult to crochet into in the next round. Tie the loose tails in a knot and leave them on the inside.

FASTENING OFF

When you've finished crocheting, cut the yarn a couple of inches / cm from your last stitch. Pull the yarn through the last loop until it is all the way through (1). You now have a finished knot.

Thread the long tail through a tapestry needle and insert your tapestry needle through the back loop of the next stitch (2). This way the finishing knot will remain invisible in your finished piece. You can use this piece of yarn to continue sewing the body pieces together.

JOINING ALL PARTS

First, pin together the parts that you want to sew to one another, so you can evaluate the results and adjust if necessary. If possible use the leftover yarn tail from where you fastened off or use a new length of the same yarn color from one of the pieces that you want to join. When the different pieces are open: position the piece on the body and sew all around it, going through the front stitches of both the extremity and the body.

When the opening of the different pieces is sewn closed before attaching it to the body, you line up the stitches of one side with the other side and sew through the front loop of one side and the back loop of the other side. Use the same color of yarn as the piece you want to join together.

Always make sure pieces are securely attached so that they can't be pulled off. Make small, neat stitches and try to make them show as little as possible.

WORKING WITH FURRY YARN

When crocheting with furry yarn it is preferable not to turn the work so the 'right side' is facing outwards, as you would normally do for crocheted amigurumi. When crocheting, most of the fur filaments end up at what is traditionally considered to be the back of the fabric. This will mean that when working a tube you will be inserting your hook into the stitch from the inside to the outside of the tube whilst working counter clockwise.

DECREASING WITH FURRY AND FLUFFY YARN:

The invisible decrease method, most commonly used for making amigurumi, might not be the easiest method when working with furry or fluffy yarns where individual loops are more difficult to see. Instead you can decrease with this method: Insert hook into st, wrap yarn around hook and draw up a loop. Insert hook into next st, wrap yarn around hook and draw up a second loop. You will now have 3 loops on hook. Wrap yarn around hook again and draw through all 3 loops on hook.

MAGIC RING WITH FURRY AND FLUFFY YARN

If you have trouble making a magic ring in furry or fluffy yarns, you can start each piece using this technique: ch 2, 6 sc into the second chain from the hook.

SKILL LEVEL

easy (★), intermediate (★★), advanced (★★★)

Every pattern is marked with a skill level to indicate how easy they are to make. If this is your first time making amigurumi, it's best to start with an easy pattern and work up to the intermediate and advanced ones.

PATTERN STRUCTURE

All patterns in this book are worked in continuous spirals, not in joined rounds. Crocheting in spirals can be confusing since there's no clear indication of where a new round begins and the previous one ends. To keep track of the rounds, you can mark the end of a round with a stitch marker or safety pin. After crocheting the next round, you should end up right above your stitch marker. Move your stitch marker at the end of each round to keep track of where you are.

At the beginning of each line of the pattern you will find 'Rnd + a number' to indicate which round you are in. Although we usually crochet in rounds, occasionally it happens that we switch to rows. When we switch to rows, it will be indicated with 'Row + a number'.

At the end of each line you will find the number of stitches you should have in square brackets, for example [9]. When in doubt take a moment to check your stitch count.

Abbreviations are used throughout the book. You can find their explanations on pages 4 – 6.

When part of the instructions repeat throughout the round, we place it between rounded brackets followed by the number of times it should be repeated. We do this to shorten the pattern and make it less cluttered.

BASIC MATERIALS

YARN

With every pattern in this book we list the materials used to create that design, including the yarn thickness used by the designer. Don't feel tied to the choices of yarn thickness though, any weight of cotton, acrylic or wool can be used as a substitute, provided you use the right crochet hook accordingly.

The patterns don't give the yarn quantity. The amounts are rather small and will vary according to how loosely or tightly you crochet. You could use some of the remnants from other projects or start with a new ball of yarn. One or two balls of a color is usually enough.

CROCHET HOOKS

Not only yarn, but hooks as well come in different sorts and sizes. Bigger hooks make bigger stitches than smaller ones. It is important to match the right hook size with the right weight of yarn. In the table below you will find the standard hook size recommended for each yarn weight. For amigurumi, however, you generally use a hook two or three sizes smaller than what is recommended for your yarn. The crochet fabric should be quite tight, without any gaps through which the stuffing can escape. Using a smaller hook makes it easier to achieve this.

| NUMBER (SYMBOL) | 1 | 2 | 3 | 4 | 5 | 6 |
|-----------------------------------|---------------|--------------|----------------------|-----------------|------------------|-----------------|
| CATEGORY NAME | super fine | fine | light | medium | heavy | very heavy |
| UK YARN TYPE | 3 ply | 4 ply | double knitting (DK) | aran | chunky | super chunky |
| US YARN TYPE | Fingering | Sport | Light Worsted | Worsted | Bulky | Extra Bulky |

| RECOMMENDED HOOK IN METRIC SIZE * | 2,25 to 3,5mm | 3,5 to 4,5mm | 4,5 to 5,5mm | 5,5 to 6,5mm | 6,5 to 9mm | 9 mm and larger |

* For amigurumi you generally use a hook two or three sizes smaller than what is recommended for your yarn.

Hooks are usually made from aluminum or steel. Metal hooks tend to slip between the stitches more easily. Preferably choose a crochet hook with a rubber or ergonomic handle.

STITCH MARKER

A stitch marker is a small clip made of metal or plastic. It's a simple tool to mark your starting point and give you the assurance that you've made the right number of stitches in each round. With my stitch marker I always mark the last stitch of the previous round.

STUFFING/FACIAL FEATURES

For the filling polyester fiberfill is advised. You can purchase this at any craft shop. It is inexpensive, washable and non-allergenic. Be careful not to over-stuff your amigurumi as the stuffing might stretch the fabric and show through.

For some patterns safety eyes are used. These are widely available. Be alert when you apply safety eyes: once you put the washer on you won't be able to pull it off again. So be very careful that the post is where you want it to be before attaching the washer.

Alternatively, the features can be embroidered, which is recommended if you're crocheting for children under the age of three. For embroidery a tapestry needle with a rounded tip is used.

Using your yarn needle, weave the yarn tail through the front loop of each remaining stitch and pull it tight, closing off the arm. Fasten off.

LEG (make 2, start in white yarn)

The legs involve a color change in the bobble stitches. You will need to change to pink yarn for every 5-dc-bobble stitch in round 5. Switch back to the main color for all other stitches. To change color smoothly start your bobble in pink yarn but when you have your 6 loops left on the hook, yarn over with the white yarn and pull through all 6 loops on the hook to complete

the stitch. When making color changes, drop the yarn you are not using to the back of your work and pick it up again when you need it, being careful not to pull it too loose or too tight when starting with it again.

Rnd 26: dec 6 times [6]

Fasten off, leaving a tail for sewing. Finish stuffing. Using your yarn needle, weave the yarn tail through the front loop of each remaining stitch and pull it tight, closing off the leg. Fasten off.

FOOT SHAPING

Use white yarn to shape the toes. You will be making three stitches in between the bobble stitches on the feet. With a yarn needle, stitch between the first two bobble stitches, into round 2 of the foot, and make a long stitch exiting vertically between rounds 10 and 11. Then stitch again in the same place, looping the yarn around the foot and pulling it tightly. Repeat this stitch a few times and fasten off securely. Repeat these stitches twice more between the other bobble stitches.

Rnd 13 – 26: sc in all 12 st [12]

Fasten off, leaving a tail for sewing.

ASSEMBLY

- Stuff the head and shape.
- Stuff the muzzle, and keeping the triangular shape, place the top 'point' at the stitch marked on the head earlier, with the straight edge at the bottom and laying across round 17 of the head. Stitch on securely, adding more stuffing just before you close it up.
- Shaping the muzzle: Use white yarn to shape the muzzle. With a needle, stitch into the centre of the round just above the magic ring and make a long stitch, exiting at the base. Then stitch again in the same place, looping the yarn around the muzzle. Sew through these two points repeatedly, pulling the stitches tightly. Fasten off securely
- Attach the safety eyes now, between rounds 11 and 12, so they rest on the muzzle and are just over an inch / 2.5 cm apart. Stitch the eyelids on making sure to curve them around the eyes.

- Place the nose with the bottom point resting on the centre of the muzzle and stitch on firmly. Using pink yarn, embroider a stitch where the muzzle is divided into two.
- Stuff the body firmly and sew it to the head along the neck edges.
- Using round 3 of the head as a starting point, pin the ears to the head in a curved position. When you are happy with the placement stitch them on firmly.
- Take a long length of yarn and stitch through the first leg at about 0.4" / 1 cm from the top, through the body in round 8 and into the second leg at about 0.4" / 1 cm from the top, then stitch back through the second leg, then the body and the first leg in the same place and pull firmly. Repeat these stitches back and forth through the legs and body until the legs are securely attached but still movable. Fasten off. Repeat this process for the arms attaching them in the same way, below the neck.
- Sew the tail to the lower back. Weave in any loose ends.

ASSEMBLY

– Add stuffing to the head and the body, filling out the tail up to the tip. Line up the head to the skipped stitches from round 18, stitch the two pieces together matching stitch for stitch.

- Take 3 pieces of craft pipe cleaners and twist them together to make 1 thick pipe.
- Take a knitting needle and push it through the lower half of the body, between round 5 and 6, where you want the legs to start, this will make a tunnel in the stuffing for the pipe cleaner to go through. Now pull the pipe through this tunnel, until you have 2 even lengths either side.
- Put the leg pieces onto the pipe cleaners, sewing the top edge to the body.
- Next unravel the thick pipe into 3 strands, fold each strand in half to the length you want the toes to be (0.8" / 2 cm in the example) twisting the pipe cleaners together for strength. Chop off the leftover pipe cleaners a little behind the heel to make the back toes.
- Now put all the remaining crochet toe sections onto the pipe cleaner toes and stitch them all together to make the feet.

- Next sew the wings to either side of the body. Place the wing onto the body with curved edge pointing down, sew the first half of the wing flat against the body. Next lift the wing up, and sew the remaining part along the same line, so the wing makes a small fold along the back - this will make them stick up either side.
- Embroider the beak with orange yarn. First work 4 short embroidery stitches into the head where you want the beak to begin, then work 4 short stitches across the first stitches, wrapping them around the first 4, then work some more stitches over the last 4 and so on until you get to the size of beak you want. Repeat this for the bottom half of the beak.
- Sew the beret to the top of Jacques' head.
- Wrap the scarf around the base of Jacques' neck to complete.

Continue with the arm pattern from round 24 onwards to complete the toes. Make sure you stuff the toes and feet as you go.

ASSEMBLY

- Position the head to the body and sew them together.
- Sew the eyelids to the white eyeball with the edge touching round 4. Add some fiberfill under the eyelids, behind the eyes.
- Pin the eyes to the head between round 4 and 11 and sew them on. You will want to add a few stitches under the white parts of the eye, because the stuffing behind the eyelids might have a chance to come out if you don't.
- Pin the arms to the body and sew them in place.
- Sew the top back part of the feet to the legs, so that the feet are at the right angles to the legs.
- If you want the legs to stay bent, you can sew them together with one stitch under the knee so that they will stay put.

– Sew round 3 to 11 of the legs to the body. If you want the legs to be bent, like in the example seen here, you sew them to the body pointing upwards. If you want to have them straight, you need to sew them to the body pointing downwards.

– Cut two small circles from black felt for the frog's pupils and two smaller circles from white felt to add some 'shine' to his eyes. Use fabric glue to attach these.

– For the frog's mouth, take a long strand of green yarn and insert your needle into the back of the frog's head. Bring the needle out on the front side where you want the mouth to start. Next run the strand across the face and insert the needle on the other side of its face. Run the needle back through the head, to where you started on the back of the frog's head. Pull both ends tight to make the indentation of the mouth. Tie a couple of knots to secure, cut the ends and stuff the knots back into the head to hide them.
